\_\_\_\_\_

This application was electronically received at the Board of Patent Appeals and Interferences on October 31, 2005. A review of the application has revealed that the application is not ready for docketing as an appeal. Accordingly, the application is herewith being returned to the examiner. The matters still requiring attention prior to docketing are identified below.

This application was returned by the Board of Patent Appeals and Interferences on August 23, 2005, for the examiner to among other issues, to review and reevaluate the:

It is not clear from the record that the examiner addressed the above-noted rejection.

Accordingly, it is

**ORDERED** that the application is returned to the examiner for resolution of the following issues:

- 2) generate a revised Examiner’s Answer setting forth the new the grounds of rejection with the appropriate approval in accordance with MPEP 1207.03; and

It is important that the Board of Patent Appeals and Interferences be informed promptly of any action affecting the appeal (i.e. abandonment, issue, reopening prosecution).
